Sibonelo Nkosikhona Shabalala

IT Graduate · Backend-focused developer · Open to junior roles and internships

cbonelonkosikhona@gmail.com | linkedin.com/in/sibonelo-nkosikhona-shabalala-22505b363 | github.com/SIbonelo-Starlight

PROFILE

Diploma in IT graduate who learns by building systems people could actually use. I focus on backend development (C#, ASP.NET Core, databases) and also build the front end. Led a team of 4 through a three-phase, client-facing project that finished 100% on schedule, and I am completing Cisco courses in networking and ethical hacking.

EDUCATION

Diploma in Information Technology, Central University of Technology 2026

PROJECTS

ITS ResFix: student accommodation complaint system (group of 4, live)

Flutter · ASP.NET Core 8 · Supabase/PostgreSQL · Cloudinary · BulkSMS

- Replaces phone and WhatsApp reporting for a 168-student residence with tracked complaints, auto-assignment by category, a 48-hour response timer and escalation to an external company.
- Group leader and project manager: ran the schedule (100% complete), the 30-item change log and the risk register, and owned the auto-assignment rules risk.

Community Alert System (solo)

C# · ASP.NET Core MVC (.NET 8) · Identity · Entity Framework Core · SQLite · Bootstrap

- Bilingual English/IsiZulu safety platform: residents submit alerts, admins approve them before they go public; limit of three submissions per user per day.
- Admin and User roles, community notices, incident reports, volunteer sign-up and an admin dashboard with page-view analytics.

Code: github.com/SIbonelo-Starlight/CommunityAlerts

B&G Fast Food ordering system (solo)

Node.js · Express · JavaScript · HTML/CSS · EmailJS · Nodemailer

- Customer shop with plate customisation, delivery or pickup pricing, persistent cart and emailed order confirmation; password-protected admin panel with rate-limited login and 2-hour sessions.
- Documented 11 known limitations before launch (for example, the server trusting browser-sent prices) with a fix for each.

Code: github.com/SIbonelo-Starlight/B-G-Fast-Food

SKILLS

Backend (focus): C# (strongest), ASP.NET Core MVC, Identity, Entity Framework Core, Node.js/Express, Supabase/PostgreSQL

Front end: HTML, CSS, JavaScript (learning), Dart/Flutter

Other: Java (basics), PC hardware and support, networking fundamentals, cybersecurity basics, project management (Microsoft Project, risk register, change control)

CERTIFICATES

- Introduction to Cybersecurity, Cisco (completed)

- Introduction to Data Science, Cisco (completed)
- IT Essentials: PC Hardware and Software, Cisco (completed)
- Learn-A-Ton, Credly badge (completed)
- Networking Basics, Cisco (in progress)
- Ethical Hacker, Cisco (in progress, about 55%)
